欢迎 **Welcome**  
to the **expanding world**  
of Sterigenics.

## Bringing safer, smarter solutions to the world marketplace.

From Shanghai to North America to the heart of the European Union, Sterigenics International is expanding—building new facilities and enlarging existing ones, to bring the latest in technology and increased speed-to-market to medical device manufactures worldwide. We reward our customers with superior convenience and capacity, and innovative solutions for cutting time from the supply chain, and inventory from the balance sheet—all without compromise to quality.

### **Unequaled range of technologies.**

With 40 facilities across North America, Europe and Asia, Sterigenics is the leading provider of sterilization services for the world's medical device industry, and the only company to offer all of the leading sterilization technologies including: gamma, ethylene oxide, electron beam, steam and X-ray.

### **Innovative, custom solutions.**

For Sterigenics, meeting your sterilization needs is not only about offering a range of technologies. It is about delivering a range of Quality Services—reliably, faster and smarter. It is also about using our expertise and that of more than 1,000 employees around the globe to deliver innovative custom solutions for every customer's sterilization needs.

### **Quality you can trust.**

Across the Sterigenics network, every test methodology and procedure is executed in full accordance with ISO, EN and AAMI and/or specific customer-supplied requirements. Because our Quality System is identical in every facility we operate, consistent quality is delivered to every customer we service, whether a single site or multiple facilities are utilized.

### **Our global network.**

Sterigenics is the only company in its sectors to operate globally. As a result of this broad-based network, customers around the world are able to enjoy the economy and convenience of cutting-edge technology and expert technical support close to their production and distribution facilities.

### **Validation and testing services.**

Along with state-of-the-art technology, Sterigenics provides the full range of validation, regulatory and quality-support services required by companies exporting products to the international community.

### **Sterigenics International**

Headquartered in the Chicago suburb of Oak Brook, IL, Sterigenics International, Inc., is a portfolio company of Silverfleet Capital (formerly PPM Capital Limited) and PPM America Capital Partners, LLC. Sterigenics is the world leader in contract sterilization and ionization services for the medical device, food safety and high performance/specialty materials industries.
