

When Timing is Critical

EOStat®

“At Sterigenics, we’re committed to providing the fastest Ethylene Oxide processing available anywhere in the world... guaranteed. When your products require fast turnaround, call us. Our state-of-the-art facilities are designed to deliver quality service as fast as you need it.”

–David E. Meyer

C.E.O., Sterigenics

International, Inc.

Processed as fast as you need it...

When you absolutely, positively must have processed product stat, and Ethylene Oxide is your modality of choice, count on Sterigenics’ EOStat service option to make it happen.

Sterigenics adds new speed and agility to your EO sterilization needs. Advance notice is all that’s required. Simply tell us when you will be delivering your product and when you want it shipped. We’ll take it from there.*

The Perfect Answer for All of These Needs... and More

- Your customers’ urgent requests
- JIT inventory requirements
- Inventory emergencies
- New product releases

Our Guarantee Says It All

When timing is critical, Sterigenics guarantees products processed under the EOStat program will be ready within the requested time frame. If we fail to meet your deadline, you will be charged for only the processing service provided. Contact your nearest Sterigenics EO facility for more details.

*The EOStat service fee is double normal processing charges. The Sterigenics guarantee covers the EOStat service charge. Some products may have cycle requirements that could limit EOStat availability.
