

When Timing is Critical

GammaStat®

It's on time,
or it's on us!

“At Sterigenics, we're committed to providing the fastest gamma processing available anywhere in the world...guaranteed. When your products require fast turnaround, call us. Our state-of-the-art facilities are designed to deliver quality service as fast as you need it. Period. It's on time...or it's on us.”

-David E. Meyer

C.E.O., Sterigenics

Processed in One Day...or You Don't Pay

When you absolutely, positively must have processed product stat, and gamma radiation is your modality of choice, count on Sterigenics' GammaStat service option to make it happen. With GammaStat, you don't need to arrange for expedited service days, or even weeks, in advance. Simply tell us when you will be delivering your product and when you want it shipped. We'll take it from there.

Two Service Levels to Meet Your Needs

- GammaStat I for 23-hour service
- GammaStat II for 48-hour service

The Perfect Answer for All of These Needs...and More

- Your customers' urgent requests
- JIT inventory requirements
- Inventory emergencies
- New product releases
- Research & development needs

Our Guarantee Says It All

When timing is critical, Sterigenics guarantees products processed under the GammaStat program will be ready within the requested 23- or 48-hour time frame. If we fail to meet your deadline, we pay for the processing.*

*The GammaStat service fee is in addition to normal processing charges. The Sterigenics guarantee covers both the processing and the GammaStat service charge. Some products may have dose requirements that could limit GammaStat availability.
